Positive aspects of the submission

Thank you for your submission Hashim. Awesome work here! You have done well to meet the task requirements, showing that you have a good grasp of Higher-order Functions and Callbacks for this task 💪 You have made sure to keep your code clean with good use of spacing and indentation, making it easy to read, debug, and maintain. Additionally, your code is well documented with brief and informative comments, allowing the reader to navigate and understand your code quickly, further improving its maintainability.

Aspects of the submission that could be improved

Just for some extra information and to get some practice using JavaScript:
